

BHARAT S. BUDHALANI

Founder & Full-Stack Developer | D-Coders Technologies

Amravati, Maharashtra, India • 9975002859 • budhalanibharat@gmail.com • github.com/BharatBudhalani

PROFESSIONAL PROFILE

Full-Stack Software Engineer and entrepreneur with 4+ years of professional and entrepreneurial experience across web, mobile, API, database, and client-facing software development. Experienced in Angular, NestJS, Node.js, TypeScript, JavaScript, MySQL, REST APIs, CI/CD, and production deployments. After working as a Software Engineer at Compumatrice Multimedia Pvt. Ltd. from December 2022 to June 2025, I resumed building and leading D-Coders Technologies from June 2025 onward, focusing on freelance and client-driven software projects. I combine hands-on engineering with requirement analysis, solution design, client communication, delivery, and ongoing technical support.

CORE TECHNOLOGY STACK

Angular • React / Next.js • TypeScript • JavaScript • NestJS • Node.js • HTML5 • CSS3 / SCSS • Bootstrap • Ionic • Cordova • Capacitor • MySQL / SQL • REST APIs • Git / GitHub • Jenkins • Postman • JIRA • Confluence • AWS S3 • Google Cloud APIs • Firebase

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer — D-Coders Technologies

Amravati, Maharashtra | June 2025 – Present | Freelance / Client Projects

- Restarted and currently lead D-Coders Technologies as a client-focused software development venture.
- Own the complete project lifecycle: requirement discovery, technical planning, UI development, backend/API development, database design, testing, deployment, and maintenance.
- Develop business-oriented web applications, admin panels, management systems, real-estate solutions, billing/inventory platforms, and custom digital products.
- Build scalable applications using Angular, React/Next.js, NestJS, Node.js, TypeScript, JavaScript, and MySQL.
- Implement REST APIs, authentication and authorization, third-party integrations, payment workflows, webhooks, notifications, background jobs, and database-driven features.
- Handle client communication, estimation, delivery planning, production troubleshooting, hosting/deployment, and post-launch support.
- Focus on clean architecture, maintainable code, practical UX, performance, reliability, and long-term client value.

Software Engineer — Compumatrice Multimedia Pvt. Ltd.

Pune | December 2022 – June 2025

Healthy Culture 360 — Mobile App

- Healthcare application enabling patients/consumers to purchase plans and packages and securely connect with healthcare providers.
- Designed and implemented Angular 14+ UI features; developed and consumed RESTful APIs using NestJS; worked with third-party APIs and Jenkins CI/CD.
- Stack: Node.js, NestJS, Ionic, Cordova, Capacitor, Angular 14+, HTML, SCSS, JavaScript, CSS, Bootstrap.

Healthy Culture 360 — Web / Physician Portal

- Integrated healthcare platform for provider/doctor workflows including patient records, plans/packages, appointments and notifications.
- Implemented plans and packages features, REST APIs, Angular UI, MySQL queries, unit/automation tests, and Jenkins CI/CD.
- Stack: Node.js, NestJS, Angular 14+, HTML, SCSS, JavaScript, Bootstrap, MySQL.

The Tennis Wizard — Mobile App

- Sports-performance platform supporting tennis players with physical performance, conditioning, speed, agility, flexibility, endurance and nutrition journeys.
- Implemented Angular UI features, NestJS REST APIs/third-party API consumption, and Jenkins CI/CD.
- Stack: Node.js, NestJS, Ionic, Cordova, Capacitor, Angular 14+, HTML, SCSS, JavaScript, CSS, Bootstrap.

Patient Connect 360 — Mobile / Wellness Platform

- Wellness engagement and participant-retention platform with provider workflows, assessments, care plans, appointments and notifications.
- Worked on plans/packages, APIs, UI functionality, Angular REST API consumption, automated/unit testing and MySQL database queries.
- Stack: Node.js, Angular 14+, NestJS, HTML, SCSS, JavaScript, Bootstrap, MySQL.

Software Engineer — D-Coders Technologies

Amravati | December 2021 – June 2022

- Designed and developed web and mobile applications from scratch using Angular and .NET technologies.
- Integrated REST APIs, implemented UI/UX improvements, and collaborated directly with clients to gather requirements and deliver solutions.
- Handled full-stack development, requirement analysis, application deployment, client communication, and delivery schedules.
- Stack: Angular, .NET, Ionic, HTML, SCSS, JavaScript, Bootstrap, MySQL.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science Engineering

DES's COET, Dhamangaon Rly, Amravati | June 2011 – April 2014 • 70%

Diploma — Computer Technology

L.A.M.I.T., Dhamangaon Rly, Amravati | June 2007 – April 2010 • 83.03%

Secondary School Certificate (SSC)

SFL High School & Junior College, Dhamangaon Rly, Amravati | April 2007 • 66%

ADDITIONAL HIGHLIGHTS

- Participated in international-level project competition TECHNOfest 2010.
- Participated in TECHNOfest 2012 poster competition.
- Participated in national-level Robo War competitions CRANK 2K12 and ANTRATECH 2012.
- Secured 1st position in MEDIA MASTER'13 workshop/competition.

FREELANCE / PORTFOLIO POSITIONING

Available for freelance and contract engagements involving full-stack web development, custom business applications, admin dashboards, API development, database-backed systems, website development, application maintenance, and production deployment. Comfortable working directly with business owners, startups, and teams from idea to launch.
